

MD NOOR-ALOM SIDDIK FLUTTER DEVELOPER

dev.nooralom@gmail.com +8801707418534 Mohakhali, Dhaka

Portfolio Md Noor-Alom Siddik Md Noor-Alom Siddik

PROFESSIONAL SUMMARY

Results-driven Flutter Developer with **3+ years of experience** building and maintaining scalable, high-performance cross-platform applications for Android and iOS.

Experienced in **clean architecture, state management, REST API integration, Firebase, and production app deployment**, with hands-on involvement across the full development lifecycle.

Proven ability to deliver reliable, user-focused applications with an emphasis on **performance optimization, maintainable code, scalability, and seamless user experience**.

PROFESSIONAL EXPERIENCE

Flutter Developer, Ibrahim Tech BD

Nov 2025 – Present
Badda, Dhaka

- Launched the company's first Android application, expanding the business from a web-only platform to mobile
- Owned the end-to-end Flutter development lifecycle, from application architecture and feature development to Play Store release
- Contributed to expanding the platform's reach from approximately 1K to 6K+ users following the Android launch
- Built and maintained a scalable, production-ready codebase with a focus on performance, stability, and maintainability

Flutter Developer (Junior), Softvence Agency

Oct 2024 – Nov 2025
Mohakhali, Dhaka

- Delivered multiple Flutter applications for international clients through Fiverr with zero project cancellations
- Managed Android and iOS app releases, including deployment to Google Play Store and Apple App Store
- Communicated directly with clients to understand requirements, clarify scope, and align development with project expectations
- Contributed to repeat business through reliable delivery, consistent communication, and successful project completion

Flutter Developer (Intern), Classic It & Sky Mart Ltd

Jan 2024 – Sep 2024
Uttara, Dhaka

- Built responsive Flutter interfaces and supported REST API integration for production applications
- Assisted with frontend feature development and improvements across live Flutter projects
- Collaborated with development teams through Git-based workflows, code reviews, and shared development practices

SOFT SKILLS

- Strong problem-solving, analytical thinking, and attention to detail in technical challenges
- Effective communication, teamwork, adaptability, and time management in collaborative environments

TECHNICAL SKILLS

Flutter Development: Dart, Flutter (Android & iOS), Responsive & Pixel-Perfect UI, Custom Animations

Architecture & State Management: Clean Architecture, GetX, Provider, BLoC, Reusable Components, Performance Optimization

API & Backend: REST APIs, Firebase, Socket.IO, Firebase Authentication, Firebase Cloud Messaging (FCM)

Integrations: Google, Facebook & Apple Sign-In, Google Maps, Stripe, SSLCommerz, bKash

Database & Local Storage: SQLite, Firebase Firestore, Firebase Realtime Database, Hive, GetStorage

Tools & Deployment: Android Studio, VS Code, Xcode, Postman, Figma, Git, GitHub, Google Play Store, Apple App Store

PROJECTS

EDU পরিবার, *Google Play Store*

- Built and continuously maintain a production e-learning application supporting live classes, recorded courses, and on-demand video learning
- Developed course enrollment, video streaming, offline content access, and MCQ/written examination workflows with real-time result evaluation
- Integrated REST APIs and optimized application performance, reliability, and overall user experience
- Maintained and enhanced a production e-learning app with 10K+ downloads and a 4.6★ Google Play rating.

BEESTERA SOCCER, *Apple App Store* , *Google Play Store*

- Developed a cross-platform football training application for Android and iOS with structured video-based learning experiences
- Built practice submission workflows and a dynamic leaderboard system to support user engagement and performance tracking
- Contributed to responsive UI development, backend integration, debugging, and application performance improvements
- Supported successful production deployment and release across both Google Play Store and Apple App Store

URBAN KOALA, *Apple App Store* , *Google Play Store*

- Developed a location-based service marketplace connecting travelers with local providers for rentals, storage, parking, and related services
- Integrated interactive map-based functionality to help users discover and access nearby service providers
- Implemented booking workflows with real-time communication and payment gateway integration
- Improved application responsiveness, performance, and user flow across location, booking, and service features

SLEEP CAST, *Google Play Store*

- Developed an audio streaming application for relaxation and sleep with categorized content and smooth background playback
- Implemented sleep timer functionality, offline listening, and multi-provider user authentication
- Integrated a premium subscription workflow to support monetization and access to paid content
- Optimized API handling, UI responsiveness, and playback experience for improved application reliability and usability

WOOD MACHINERY, *Google Play Store*

- Developed a Flutter-based e-commerce application for machinery and industrial tools
- Built structured product browsing, detailed product views, and an intuitive purchase flow
- Integrated backend services for products, orders, and user-related data
- Improved UI consistency, application responsiveness, and overall shopping experience

EDUCATION

Bachelor of Science (BSc) in Computer Science & Engineering (CSE)

International Standard University 

2025 – Present | Mohakhali, Dhaka

Diploma in Engineering – Computer Technology

Dinajpur Polytechnic Institute 

GPA: 3.71/4.00 | 2020 – 2024 | Dinajpur

LANGUAGES

- **Bengali** (Native)
- **English** (Professional Working Proficiency)
- **Hindi** (Conversational)
